Evaluation of Independence of Directors

The Company is governed by and operates in accordance with the provisions of the Listing Requirements of Bursa Securities and MCCG. Accordingly, the Board and the Nominating Committee have adopted the following policies and guidelines in assessing independence of the directors:-

An independent director must be independent of management and free from any business or other relationship which could interfere with the exercise of business judgment or the ability to act in the best interests of the Company. A director may be considered as independent if the director:

- (a) is not an executive director of the Company or its related corporation* (said Corporation);
- (b) has not within the last 2 years and is not an officer of the said Corporation; an officer includes any director, secretary or employee of the said Corporation;
- (c) is not a major shareholder of the said Corporation;
- (d) is not a family member of any executive director, officer or major shareholder of the said Corporation;
- (e) is not acting as a nominee or representative of any executive director or major shareholder of the said Corporation;
- (f) has not personally provided professional advisory services to the said Corporation within the last 2 years or is presently a partner, director (except as independent director) or major shareholder of a firm or corporation (the Entity) which has provided professional advisory services to the said Corporation within the last 2 years and the consideration in aggregate exceeds 5% of the gross revenue on a consolidated basis of the said director or the Entity or RM1 million, whichever is the higher; and
- (g) has not personally engaged in transactions with the said Corporation (other than as non-executive director) within the last 2 years or is presently a partner, director or major shareholder of an Entity (other than the Company's subsidiaries) which has engaged in transactions with the said Corporation within the last 2 years and the consideration in aggregate exceeds 5% of the gross revenue on a consolidated basis of the said director or the Entity or RM1 million, whichever is the higher, save for the exempted transactions in accordance with Practice Note 13 of the Listing Requirements.

In addition to the above criteria, the Board is mindful of the fact that long tenure of an independent director may impair his independence. Accordingly, the Nominating Committee and the Board are bound by the Recommendation in the Code which states that an independent director is deemed to lose his independence after having served on the Board for 9 years or more, unless strong justifying circumstances to the contrary exist.

Generally, a director will be considered as independent if he/she satisfies all the above criteria, subject however to the fulfillment of the criterion that the director is independent of management or any other material business or other relationships with the said Corporation which could interfere or are likely to interfere with the exercise of independent judgement by the said Director or the ability of the said Director to act in the best interests of the Company.

If is necessary, the Board will engage independent experts to facilitate the evaluation of independent director and board as this would improve in board effectiveness and bring significant benefits to the Company.
